

## SIRIO ACCESSORIES

Adjustable suspension and surface mount kits for use with our Sirio ceiling panel. Designed for environments that do not have a T-Bar ceiling, but can still benefit from the Sirio's excellent low maintenance and running costs. 4 steel cables required for 595 x 595mm panels and 6 steel cables required for 1195mm panels.

<b>75521</b>	Sirio surface mount kit for 75512 & 75515	Gloss white	Proj: 43mm W: 150-300mm L: 1200mm

The Sirio Frame is an innovative luminaire providing a decorative frame of light. The square panel outline designed for the ceiling, illuminates an indoor space just as effectively as the more common full panel. The fire barrier is maintained as the ceiling tile is in place. It offers a high lumen output of 3600 lumens and a longer life span as there is no discolouring concern, but still with a beam angle of 120°. Ideal for commercial applications.
